- 12:45 P.M. Just say no to jargon!
- 1:15 P.M. Science fair presentations
- 2:45 P.M. Awards and closing remarks

We're pleased to have CPW aquatic toxicologist Pete Cadmus, along with his white board and markers, to give his talk entitled, "The road to Type II errors is paved with great intentions: How efforts to do 'good science' led to bias in both experimental methods and policy. How do we avoid this in future water quality research?"
